RIDLEYTON SA 5008

Dear John

Northern Territory Major Events Company would like to acknowledge the work of TR Hirecom, supplying event radios for the V8 Supercars Championship, Hidden Valley Darwin.

A total of 111 radios were allocated to seven different talk groups for the operation of the event. In addition a further 122 radios were allocated with five talk groups for the purpose of race control. The two way radio system was set up with a repeater that assisted clear communication throughout the entire venue. Various headsets and accessories provided options to staff and race officials working in loud conditions.

We found the communication with TR Hirecom in the lead up to the event to be very thorough. During the event, we experienced no issues with the radios or network; however it was reassuring to have TR Hirecom staff on standby.

We look forward to working with TR Hirecom in the future.

Yours sincerely

Paul Cattermole
General Manager
